

# Kerb & Step Ramps

These highly portable ramps are built to cope easily with kerbs or one average height step. They all offer a wide range of uses in domestic, commercial and travel environments.

*Fig 7 - Kerb Ramp (AKR1)*

**Fig 7 ▲** Aluminium construction, these flat panel ramps are portable with a great anti-slip surface.

*Fig 8 - Kerb Ramp (AKR89)*

**Fig 8 ▲** Aluminium one step kerb ramp is designed for easy/instant access over one typical kerb/step. Equally suitable for hand truck/trolley movement over heights up to 7" (178mm).

*Fig 9 - Lipped Kerb Ramp (AKR2/3)*

**Fig 9 ▲** Aluminium ramp with handle for quick and easy deployment, top underside lip totally secures ramp in place.

Kerb Ramps	Length	Width	SWL	Weight
AKR1	24"/600mm	28"/710mm	240kg	3kg
AKR89	35"/890mm	31.5"/800mm	500kg	5kg
AKR2	30"/760mm	28"/700mm	300kg	6.8kg
AKR3	30"/760mm	30"/760mm	300kg	7.2kg
