

Vehicle Ramps

Our Vehicle Ramp Range is available in different styles to suit individual needs and are perfect for the loading of laden/unladen wheelchairs, powerchairs and scooters into the back of vehicles. With folding and telescopic capabilities all these ramps are highly portable.

Fig 37 - Aluminium Folding Split Scooter Ramp (AVSS6-8)

Fig 37 ◀ Aluminium channel ramps butt together to form one solid ramp. Easily separate into two halves which fold lengthwise. This makes them portable, light and extremely easy to use.

Alum. Split Scooter Ramp	Length	Internal Width	SWL per pair	Wgt.
AVSS6	72"/1800mm	29"/740mm	350kg	8kg x 2
AVSS7	84"/2100mm	29"/740mm	300kg	9kg x 2
AVSS8	96"/2400mm	29"/740mm	250kg	10kg x 2

Fig 38 - Fibreglass Folding Split Scooter Ramp (FVSS6/W)

Fig 38 ▲ Fibreglass folding split scooter ramps provide quick & easy access where and when you need it. Both halves fit together to give a secure ramp for use with all types of wheelchairs and scooters. Folding to half their length makes them easily stored and transported.

Fibreglass Split Scooter Ramp	Length	Internal Width	Overall Width	SWL	Weight
FVSS6	72"/1830mm	24.5"/610mm	28"/690mm	240kg	7kg x 2
FVSS6W	72"/1830mm	30"/760mm	33"/840mm	240kg	8kg x 2
