

Wedge & Threshold Ramps

Where thresholds on uPVC and internal/external doors create access difficulties, choose from our wedge and threshold ramp range for a simple solution.

Fig 1 - Wedge Ramp (FW2 - 4)

Fig 2 - Wedge Ramp (FW5/6)

Fig 3 - Folding Threshold Bridge Ramp (FTB26/30)

Fig 1 & 2 ▲ Fibreglass wedges simply butt up against the step/threshold and are widely used throughout the community and industry.

Fig 3 ◀ Fibreglass Folding Threshold Bridge design caters for both sides in one ramp and means door saddle will not be damaged whilst ramp is in use.
